

# 24" x 36" SIGN BLANK TEMPLATE

36"

Holes are drilled 1.25" from the edge of the sign

This is where the hole will be drilled for a bolt. Be cautious of artwork or important information being too close to this area.

**All type and important graphics should be within this area**

Painted aluminum signs are cut prior to printing and can shift slightly during production. If colors or images fall outside of this area, shifting will be more apparent.

Holes are drilled 1.25" from the edge of the sign

This is where the hole will be drilled for a bolt. Be cautious of artwork or important information being too close to this area.

This is the bleed area. Background colors or images should extend out to this line.
